Russia, Penza City

SKILLS

- REACT / REDUX
- JAVASCRIPT / TYPESCRIPT
- HTML / CSS
- REDUX-THUNK/REDUX-SAGA
- REST API / AXIOS
- ANT DESIGN / MATERIAL-UI
- UNIT TESTS / STORYBOOK

EXPERIENCE

Freelance | front-end | May 2021

- React development using redux, react-redux, react-routerdom, redux-thunk, redux-form, Axios, Material UI
- Checking the correctness of the code with Unit Tests, and using Storybook for demonstration of individuality of the project.
- Refactoring, bug fixing, migrating to TypeScript, registration, and login form creation.

PROFILE

I am a front-end developer with experience in creating websites and SPA using React (JS/TS), Redux, HTML and CSS. Now I am improving my skills in this direction, expanding them with new technologies. I will definitely start studying Vue.js and AngularJS.

I devote my free time to studying documentation and learning algorithms, solving katas on Codewars, as well as improving my English proficiency.

After working as a freelancer, I would like to find a full-time project job in a creative company with relevant tasks and a cohesive team.

EDUCATION

IT-INCUBATOR (2020-2021)

Front-end Development (React / Redux / Typescript / Storybook / Axios / TDD).

freeCodeCamp (2020)

Front-end Development Libraries
JavaScript Algorithms and Data Structures

LANGUAGES

Russian: native

English: intermediate (in progress)
